- 10 synthesis system
- 11 synthesis feed port
- 12 first reactor
- 14 first reactor synthesis inlet line
- 16 synthesis heat exchanger
- 18 synthesis heater
  
- 20 first reactor synthesis inlet port
- 22 first reactor synthesis outlet port
- 24 first reactor synthesis outlet line
- 26 in-line valve
- 28 heat exchanger loop
  
- 30 in-line valve
- 32 in-line valve
- 34 second reactor
- 36 second reactor synthesis inlet port
- 38 second reactor synthesis outlet port
  
- 40 second reactor synthesis outlet line
- 42 product recovery unit
- 44 synthesis cooler
- 46 product recovery unit inlet port
- 48 oxygenated product outlet port
  
- 50 synthesis effluent outlet port
- 52 synthesis recycle line
- 54 synthesis recycle blower
- 56 in-line valve
- 58 synthesis vent port
  
- 60 purge gas inlet port
- 62 in-line valve
- 64 in-line valve
- 66 bypass line
- 68 in-line valve

- 80 regeneration system

82 regeneration feed port  
84 second reactor regeneration inlet line  
86 regeneration heat exchanger  
88 regeneration trim heater  
  
90 second reactor regeneration inlet port  
92 second reactor regeneration outlet port  
94 second reactor regeneration outlet line  
96 first reactor regeneration inlet port  
98 first reactor regeneration outlet port  
  
100 first reactor regeneration outlet line  
102 regeneration trim cooler  
104 regeneration recycle line  
106 regeneration recycle blower  
108 bromine scrubber  
  
110 in-line valve  
112 bromine outlet port  
114 regeneration vent port
